

ADVERTORIAL

AIR NAMIBIA'S NEW OPERATIONAL TURNAROUND TEAM

AS APPROVED BY THE DIRECTOR OF CIVIL AVIATION (DCA)

The Board of Directors proudly welcomes and introduces the new team of competent and experienced persons who are vested with the responsibility of guaranteeing the effective and efficient functioning of Air Namibia Quality Assurance system, of an Air Operator Certificate (AOC) as required by the aviation act of 1962 act number 74.

The Board is confident that the team with over 100yrs of cumulative experience amongst themselves are duly equipped to ensure safe operational practices and air worthy aeroplanes and that all operations are conducted in accordance with all applicable requirements, standards and procedures.

All persons have been certified acceptable by the DCA in accordance with the FPP (Fit For Purpose Person) assessment. The Board and Management team also express their gratitude to the DCA for the role they play as regulators with ensuring our safe and secure operations.

Critical to these operational areas are our support functions of Finance, Commercial Services, Human Capital and Corporate Services, which will continue rendering support and guidance to ensure that overall commercial and strategic objectives are met.

The world class team of experts will pursue a BOT (Built-Operate-Transfer) model engagement aimed at empowering Namibians to take over post holder positions in the near future.
